

Research Project

Reproducibility in economics and econometrics

Project funded by own resources

Project title Reproducibility in economics and econometrics

Principal Investigator(s) [Kleiber, Christian](#) ;

Organisation / Research unit

Departement Wirtschaftswissenschaften / Ökonometrie und Statistik (Kleiber)

Project start 01.10.2007

Probable end 31.12.2025

Status Active

The issue of reproducibility has gained great significance in economics in recent years. Previous investigations into the current status of reproducibility of empirical work in economics have uncovered problems with data construction, model specification and identification, and numerical problems, among further issues. The project investigates numerical aspects, issues connected with simulations and other complex computations, as well as the reliability of data.

Keywords Reproducible research, statistical software

Financed by

University funds
