

Research Project

studyCube: e-learning tool for social research methods

Project funded by own resources

Project title studyCube: e-learning tool for social research methods

Principal Investigator(s) [Bergman, Manfred Max](#) ;

Project Members [Heinzmann, Claudia](#) ; [Berger, Lena](#) ;

Organisation / Research unit

Departement Gesellschaftswissenschaften / Sozialforschung und Methodologie (Bergman)

Project Website <http://www.studycube.ch/>

Project start 01.02.2006

Probable end 30.06.2014

Status Completed

StudyCube is an interactive e-learning project that allows universities to foster scholarly work and learning competencies on a collective as well as on an individual level. *StudyCube* originated at the University of St. Gall and has been developed in collaboration with the Universities of Basel and Zurich.

Max Bergman is project leader of the module "Methods of empirical social research". This module provides online programs for quantitative and qualitative social research, research design, epistemology and project management on two levels (beginners and advanced students). It will be continuously supplemented with new entries and serves the Universities of St. Gall, Zurich, and Freiburg i. Br. as an additional teaching instrument for research methods and design.
