Title Colonic mast cells in controls and slow transit constipation patients

Journal Alimentary pharmacology and therapeutics

Volume 34

Number 1

Pages / Article-Number 92-9

There is recent evidence that mast cells may play important roles in the gut, especially concerning visceral hypersensitivity and motor activity. However, most data are only available for clinical conditions characterised by diarrhoea, where MC have chiefly investigated in the mucosal layer of the colon and there is almost no information concerning constipation.
