Research Project

Impact of DNA ligase IV on genome stability during DNA replication

Third-party funded project

Project title Impact of DNA ligase IV on genome stability during DNA replication

Principal Investigator(s) [Schär, Primo Leo](#) ;

Co-Investigator(s) [Schär, Primo Leo](#) ;

Organisation / Research unit

Departement Biomedizin / Molecular Genetics (Schär)

Department

Project start 01.12.2009

Probable end 30.11.2010

Status Completed

Research grant to Dr. Olivier Fritsch

Financed by

University of Basel
