Research Project

Mechanism of action of native trace amine-associated receptor 1 (TAAR1)

Third-party funded project

Project title Mechanism of action of native trace amine-associated receptor 1 (TAAR1)

Principal Investigator(s) [Bettler, Bernhard](#) ;

Organisation / Research unit

Departement Biomedizin / Molecular Neurobiology Synaptic Plasticity (Bettler)

Department

Project start 01.09.2010

Probable end 31.08.2014

Status Completed

hghj

Financed by

Private Sector / Industry
