

Research Project

Experimental Geomorphology

Project funded by own resources

Project title Experimental Geomorphology

Principal Investigator(s) Kuhn, Nikolaus J. ;

Co-Investigator(s) Fister, Wolfgang ; Greenwood, Philip ;

Organisation / Research unit

Departement Umweltwissenschaften / Physiogeographie und Umweltwandel (Kuhn)

Project Website <http://www.physiogeo.unibas.ch/>

Project start 01.01.2009

Probable end 31.12.2015

Status Completed

The project encompasses the development of facilities to investigate the basic principles of sediment particle movement in running water. Experiments include movement of sediment in raindrop impacted flow, settling behaviour of aggregated sediment particles in agricultural watersheds after soil erosion, and the hydraulics surrounding basaltic sands on Mars.

Financed by

University funds
