

Research Project

Site-specific magnetic studies and control of large selfassembled spin systems

Third-party funded project

Project title Site-specific magnetic studies and control of large selfassembled spin systems

Principal Investigator(s) [Jung, Thomas](#) ;

Co-Investigator(s) [Kleibert, Armin](#) ;

Organisation / Research unit

Departement Physik

Departement Physik / Physik

Department

Project start 01.04.2013

Probable end 31.03.2017

Status Completed

Project granted by the Swiss Nanoscience Institute

Financed by

Public Administration

University of Basel
