A chemical-inspired approach to design distributed rate controllers for packet networks

ConferencePaper (Artikel, die in Tagungsbänden erschienen sind)

ID 1882673

Author(s) Monti, Massimo; Sifalakis, Manolis; Meyer, Thomas; Tschudin, Christian; Luise, Marco

Author(s) at UniBasel [Sifalakis, Manolis](#) ; [Meyer, Thomas](#) ; [Monti, Massimo](#) ; [Tschudin, Christian](#) ;

Year 2013

Title A chemical-inspired approach to design distributed rate controllers for packet networks

Editor(s) DeTurck, F; Diao, Y; Hong, CS; Medhi, D; Sadre, R

Book title (Conference Proceedings) IFIP/IEEE International Symposium on Integrated Network Management : 6th Intl Workshop on Distributed Autonomous Network Management Systems (DANMS)

Volume DANMS 2013

Place of Conference Gent, Belgium

Publisher IEEE

Place of Publication NEW YORK

Pages 1358-1364

ISSN/ISBN 978-3-901882-51-7
