A project related to the *Société internationale pour l'étude de la philosophie médiévale* (SIEPM). It should serve as a clearing house for information on manuscripts and editions of commentaries Peter Lombard's *Sentences*. The initial goal is the revision and updating of Friedrich Stegmüller's *Repertorium commentariorum in Sententias Petri Lombardi* (Würzburg 1947). Since the appearance of that major research tool, additional authors with extant commentaries or questions on the *Sentences* have been discovered as well as many more manuscripts not included in Stegmüller's work. The core of this international project is a web-application for the storage and manipulation of the collected data which has been designed and coded by Ueli Zahnd and is hosted on the servers of the DHLab, Basel University.
