

Research Project

NCCR RNA & Disease: Understanding the role of RNA biology in disease mechanisms

Third-party funded project

Project title NCCR RNA & Disease: Understanding the role of RNA biology in disease mechanisms

Principal Investigator(s) [Hall, Michael N.](#) ;

Organisation / Research unit

Departement Biozentrum / Biochemistry (Hall)

Department

Project start 01.05.2014

Probable end 30.04.2018

Status Completed

NCCR RNA & Disease: Understanding the role of RNA biology in disease mechanisms

Keywords molecular life science, RNA processing, RNA metabolism, noncoding RNA, disease mechanisms, translation, ribosome, RNA interference, miRNA, gene regulation, mRNA, tRNA, rRNA, lncRNA, nucleic acid

Financed by

Swiss National Science Foundation (SNSF)
