Research Project

Modelling the Swiss Gas Market in a European Context

Third-party funded project

Project title Modelling the Swiss Gas Market in a European Context

Principal Investigator(s) [Weigt, Hannes](#) ;

Project Members [Chavaz, Léo](#) ;

Organisation / Research unit

Departement Wirtschaftswissenschaften / Energieökonomik (Weigt)

Department

Project start 15.10.2015

Probable end 14.10.2018

Status Completed

The Swiss gas market is currently undergoing a process towards liberalization. At the same time the European markets are impacted by restructuring, global market shifts and security of supply concerns. We will develop a European transmission network model to evaluate different development scenarios and their effect on the Swiss market. Furthermore, we will design a Swiss gas market model to quantify the impact of different liberalization designs.
