Research Project

Hi-FrED / High-Frequency Spin Entanglement Generation in Diamond

Third-party funded project

Project title Hi-FrED / High-Frequency Spin Entanglement Generation in Diamond

Principal Investigator(s) [Warburton, Richard](#) ;

Co-Investigator(s) [Jakubczyk, Tomasz Andrzej](#) ;

Organisation / Research unit

Departement Physik / Experimental Physics (Warburton)

Department

Project start 01.08.2018

Probable end 31.07.2020

Status Completed

High-Frequency Spin Entanglement Generation in Diamond (Hi-FrED)

Financed by

Commission of the European Union
