## Research Project

### Mechanisms of bacterial surface sensing and motility control

#### Third-party funded project

**Project title** Mechanisms of bacterial surface sensing and motility control

**Principal Investigator(s)** [Hug, Isabelle](#) ;

**Organisation / Research unit**

Departement Biozentrum / Molecular Microbiology (Jenal)

**Department**

**Project start** 01.06.2018

**Probable end** 31.05.2019

**Status** Completed

Mechanisms of bacterial surface sensing and motility control

**Financed by**

Foundations and Associations

University of Basel
