Research Project

Involvement of the transcriptional coregulator PERIOD2 in the regulation of skeletal muscle mitochondrial function

Third-party funded project

Project title Involvement of the transcriptional coregulator PERIOD2 in the regulation of skeletal muscle mitochondrial function

Principal Investigator(s) [Delezie, Julien](#) ;

Organisation / Research unit

Departement Biozentrum / Growth & Development (Handschin)

Department

Project start 01.05.2019

Probable end 31.01.2020

Status Completed

Involvement of the transcriptional coregulator PERIOD2 in the regulation of skeletal muscle mitochondrial function

Financed by

University of Basel
