Research Project

F4E-OPE-1098 - EP-WAVS Full Mock-up RF cleaning Prototype

Third-party funded project

Project title F4E-OPE-1098 - EP-WAVS Full Mock-up RF cleaning Prototype

Principal Investigator(s) [Marot, Laurent](#) ;

Co-Investigator(s) [Meyer, Ernst](#) ;

Organisation / Research unit

Departement Physik / Nanomechanik (Meyer)

Department

Project start 01.10.2020

Probable end 30.09.2021

Status Completed

This contract aims at building a full scale mock-up of the RF cleaning system for the EP-WAVS. First Mirrors, and at demonstrating that RF cleaning works on a First Mirror Unit with realistic geometry using ITER representative end-to-end equipment.
