Research Project

Periodic rational points

Project funded by own resources

Project title Periodic rational points

Principal Investigator(s) [Blanc, Jérémy](#) ;

Project Members [Abouelsaad, Ahmed](#) ;

Organisation / Research unit

Departement Mathematik und Informatik / Algebraische Geometrie (Blanc)

Project start 01.09.2020

Probable end 31.08.2024

Status Active

We study endomorphisms of the projective line over the rationals, and look at possible periodic points.

Keywords rational points, dynamics, arithmetic
