Year 2022

Title Änderung des Verkehrsverhaltens während der COVID-19 Pandemie

Publication Type Scientific Report

Publisher Universität Basel; Institut für Verkehrsplanung und Transportsysteme, ETH Zurich

This report describes the observed changes in transport behavior in Switzerland during the first year of the COVID-pandemic. The data is based on a large panel, the participants in which were tracked using a smartphone-based app. The report details the changes in overall travel and travel by mode. It also focuses on the change in transport flows within and across five regions in Switzerland and computes values of travel time savings (VTTS) based on observed choices.
