Research Project

Expertise on climate model selection

Third-party funded project

Project title Expertise on climate model selection

Principal Investigator(s) [Epting, Jannis](#) ; [Råman Vinnå, Carl Love](#) ;

Organisation / Research unit

Universität Basel

Departement Umweltwissenschaften / Applied Geology (Huggenberger)

Department

Departement Umweltwissenschaften

Project start 01.06.2022

Probable end 31.12.2022

Status Completed

The expertise based on the request of DHI for an expert opinion on the DHI's current approach/method for applying the Penman-Monteith method using Copernicus forecast data for CMIP5 or CMIP6. We reviewed the selected climate models and wrote a short position statement.
