Title A convenient synthesis of multitopic 2,2':6',2''-terpyridine ligands

Journal SYNTHESIS-STUTTGART

Number 6

Pages / Article-Number 869-874

Keywords heterocycles; ligands; pyridines; amines; transition metals

A new series of mono- and polytopic 4'-arylamino-2,2':6',2''-terpyridines has been prepared by the reaction of 4'-chloro-2,2':6',2''-terpyridine with arylamines. Representative coordination chemistry of these new ligands is presented.
