

Research Project

OncoSuisse06: Clarification of Newly Emerging Roles of DNA Repair in Mediating the Cytotoxicity of 5- Fluorouracil and in the Maintenance of Epigenetic Stability

Third-party funded project

Project title OncoSuisse06: Clarification of Newly Emerging Roles of DNA Repair in Mediating the Cytotoxicity of 5- Fluorouracil and in the Maintenance of Epigenetic Stability

Principal Investigator(s) [Schär, Primo Leo](#) ;

Project Members [Kunz, Christophe](#) ;

Organisation / Research unit

Departement Biomedizin / Molecular Genetics (Schär)

Department

Project start 01.06.2006

Probable end 30.06.2008

Status Completed

Clarification of Newly Emerging Roles of DNA Repair in Mediating the Cytotoxicity of 5- Fluorouracil and in the Maintenance of Epigenetic Stability

Financed by
