Research Project

Wirtschafts-, Ernährungs- und Umweltgeschichte Mitteleuropas aufgrund archäozoologischer Daten

Third-party funded project

Project title Wirtschafts-, Ernährungs- und Umweltgeschichte Mitteleuropas aufgrund archäozoologischer Daten

Principal Investigator(s) [Schibler, Jörg](#) ;

Co-Investigator(s) [Deschler-Erb, Sabine](#) ; [Hüster Plogmann, Heidemarie](#) ; [Stopp, Barbara](#) ;

Project Members [Marti-Grädel, Elisabeth](#) ; [Schäfer, Marguerita](#) ; [Ginella, Francesca](#) ; [Bopp-Ito, Miki](#) ;

Organisation / Research unit

Departement Umweltwissenschaften / Archäozoologie (Schibler)

Department

Project Website <http://ipna.unibas.ch/archbiol/archzool.htm>

Project start 01.01.2014

Probable end 31.08.2020

Status Completed

Animal bones from archaeological sites from Central Europe and mainly Switzerland are used as an archive for the reconstruction of history of environment, food, economy, craft, trade and human social systems. In Switzerland archaeozoological data especially from Neolithic and Bronze Age lake dwellings, Bronze Age, celtic, roman and medieval dryland sites are in the archive. This archive is also a valuable source for further science based analysis ancient DNA or stable isotopes.

Keywords Central Europe, Switzerland, Archaeozoology, animal bones, Neolithic, Bronze Age, Celtic, Roman, Medieval
