Autonomic Nervous System Laboratory (ANSLAB) – Full version

Other Publications (Forschungsberichte o. ä.)

ID 78775

Author(s) Wilhelm, F. H.; Peyk, P.

Author(s) at UniBasel [Wilhelm, Frank](#) ;

Year 2007

Title Autonomic Nervous System Laboratory (ANSLAB) – Full version

Publication Type Scientific Analysis Software

Publisher ANSLAB

Integrated expert software suite for biosignal analysis with modules for electrocardiography, impedance cardiography, electromyography, reflexive startle, electrodermal activity, pulse plethysmography, continuous arterial pressure, capnography, respiration pattern, temperature, accelerometry, vocal response, event related response, spectral and nonlinear analysis of variability, and statistical parametric response using linear mixed models
