Research Project

SALSAH 2.0 – Augmenting a virtual research environment with source-centric analysis methods

Third-party funded project

Project title SALSAH 2.0 – Augmenting a virtual research environment with source-centric analysis methods

Principal Investigator(s) [Rosenthaler, Lukas](#) ;

Project Members [Subotic, Ivan](#) ;

Organisation / Research unit

Fakultär assoziierte Institutionen / Imaging software/databases (Rosenthaler)

Department

Project Website <http://www.salsah.org>

Project start 01.08.2012

Probable end 31.07.2015

Status Completed

Only the development and utilization of Virtual Research Environments render possible the genuinely digital processing of retro-digitized sources in the humanities. By utilizing these novel research platforms, research knowledge emerges directly in the digital medium. Under the acronym SALSAH (System for Annotation and Linkage of Sources in Arts and Humanities) we're developing a virtual research environment (VRE).

Keywords virtual research environment, linked open data, research platform

Financed by

Swiss National Science Foundation (SNSF)
